

## ISEF Develops Israel's Human Capital

*Many programs target Israel's immigrant and underprivileged students.*

*What sets ISEF's work apart?*

- **Continuity of Support** – ISEF is there every step of the way, from B.A. to Ph.D. and even postdoc. 30% of ISEF's scholars go on to earn advanced degrees.
- **Effective Support Systems** – Our students say: "ISEF is my second family." ISEF's safety net offers emergency funds, academic assistance, even extra support for army reservists.
- **Strong Peer Network** – ISEF is a place to belong in the unfamiliar world of the campus, where students from immigrant families can feel out of place.
- **Leadership Training** – Students overcome shyness, learn to take pride in their heritage, master public speaking, and become leaders and doers.
- **Community Service** – Teaching and mentoring over 2,000 at-risk Israeli youth transforms ISEF students from "needy" to "needed."

### **ISEF GETS RESULTS:**

**25% of all Israeli university students drop out—but at ISEF, 95% stay in school and get their degrees! ISEF empowers underprivileged young Israelis to reach their full potential.**

### **ISEF TRANSFORMS THE FACE OF ISRAELI SOCIETY:**

**Over 6,500 ISEF Alumni now hold key positions in all walks of Israeli life—including members of Knesset, college presidents, leading medical researchers, and founders of major NGOs.**
